Here is some information from College Board on choosing devices
https://bluebook.collegeboard.org/technology/devices

If you're deciding between device types, consider these key factors:
• Minimum battery life is 4 hours for AP Exams and 3 hours for SAT Suite of Assessments
• Chromebooks must be school managed, run in kiosk mode, and from 2017 or later
• Physical keyboards are required for AP Exams taken on iPads or Windows tablets

Windows & Mac Requirements

Support Windows Operating Systems
• Required minimum: Windows 10
• Excluded: S mode and Windows 11 SE
• Recommended maximum: Windows 11

Support Mac Operating Systems
• Required minimum: macOS 11.7.5
• Recommended maximum: macOS 14.6.1
• Not recommended: macOS 15

Windows & Mac Minimum Hardware Specifications
• 1 GHz processor
• 2 GB RAM
• At least 1 GB free storage

Windows & Mac Monitors and Screen Displays
• Minimum laptop screen size: 10 inches
• Minimum tablet size: 8 inches
• Minimum screen resolution: 1024 x 768
• Second monitor not permitted

Mice and Keyboards
• Mice are allowed on all tests
• Wired mice are recommended
• Bluetooth mice should be fully charged to last the duration of the exam
• Students can't use external keyboards with laptops
• For tablets, physical keyboards are required for AP Exams and optional for SAT Suite

Power
• AP Exams: Testing devices must hold a charge for at least 4 hours
• SAT Weekend and SAT Suite: Testing devices must hold a charge for at least 3 hours. Mr. Nourse, IT Manager at CCS highly recommends doing these things prior to the day of testing to ensure a good testing experience.

Troubleshooting
• Reboot computer
• Clear history/cookies
• Make sure device is updated Make sure device is updated
• Make sure you download or update Bluebook
• Make sure device has been rebooted
• Make sure student is connected to CCS-STUDENTS NOT OLDGOLD that will be turned off that day
• Make sure they have the latest update for the required browser and history/cookies have been cleared
